
Add this code to Functions.php

```
function clickable_element_class(){  
?>  
<script>  
jQuery(".class-name").click(function() {  
    window.location = "https://yourURL.com";  
});  
  
</script>  
<?php  
}  
add_action('wp_footer', 'clickable_element_class');
```

-----Opens in New Tab-----

```
function clickable_element_class_new_tab(){  
?>  
<script>  
jQuery(".class-name").click(function() {  
    window.open('https://yourURL.com', '_blank');  
});  
  
</script>  
<?php  
}  
add_action('wp_footer', 'clickable_element_class_new_tab');
```

Add this CSS to customization

```
.class-name {  
    cursor: pointer;  
}
```
